

Arda Pulat

Computer Engineer

Bursa/ Nilufer ,0534 413 1009 | [Github](#) | [Linkedin](#) | ardapulat21@outlook.com

Profile

Detail-oriented and innovative Computer Engineer with a strong foundation in software development. Proficient in .NET Technologies with hands-on experience in developing scalable applications and optimizing system performance. Skilled in collaborating with cross-functional teams to deliver high-quality solutions that meet user needs and business goals. Excellent problem-solving abilities and a passion for leveraging technology to drive efficiency and innovation. Seeking to contribute technical expertise and creativity in a dynamic engineering role. Military service has been deferred until 29 November, 2029.

Work Experience

Full Stack Developer Intern

BIAnalytics, 01/2025 - 05/2025

- Worked on a customized version of the open-source Apache Superset reporting platform.
- Developed new features and enhancements on the frontend using TypeScript, ensuring seamless integration with the existing system.
- Implemented backend modifications using Python, connecting frontend components with server-side functionalities.
- Contributed to improving reporting capabilities and user experience by tailoring open-source solutions to project-specific needs.

Software Developer Intern

EKSIM, Altunizade/İstanbul | 07/2024 - 09/2024

- Developed and maintained web applications using ASP.NET MVC, enhancing user experience and functionality.
- Designed and implemented RESTful APIs using ASP.NET to facilitate seamless data communication between the client and server.
- Implemented authentication and authorization features to ensure secure access to applications, improving overall security protocols.

Full Stack Developer

Matek, Maslak/İstanbul | 01/2023 - 07/2024

- Developed desktop applications using WPF, following the MVVM architecture for clean and maintainable code.
- Focused on image and video processing, building features that handled real-time visual analysis.
- Integrated FFMPEG to perform operations like frame extraction, conversion, and media manipulation.
- Applied asynchronous programming techniques to ensure smooth UI.
